Indianapolis North, White River 2012 vs 2013 Alternative Cost Changes

	2012 Draft SEIS Alternative Cost	2013 Final SEIS Alternative Cost	Difference	Increase or
Alternative	Estimate	Estimate	in Costs	Decrease
Westfield Blvd	\$14,400,000	\$11,612,000	\$2,788,000	Decrease *
Westfield Blvd Variation Canal Gate Structure Relocation	\$16,500,000	\$14,578,000	\$1,922,000	Decrease *
Westfield Blvd Variation Removable Wall	\$15,300,000	\$13,868,000	\$1,432,000	Decrease *
56th Street	\$14,300,000	\$11,266,000**	\$3,034,000	Decrease *
56th Street Variation Illinois Street		\$13,774,000		
Rocky Ripple	\$50,300,000	\$45,093,000	\$5,207,000	Decrease *

^{*}Cost decreases are attributed to the following:

- -Decreased Planning Engineering and Design (PED) costs and Construction Management (CM) costs arising from re-evaluation and lowering of PED and CM percentages applied to estimated construction costs.
- -Decreased estimated cost for I-Wall and Pump Stations based on recent awarded contracts in the Central Indiana area.

^{**}Reference Section 3.1, Table 1, of the Final SEIS Report. The alternative cost for the 56th Street Alternative should be \$11,266,000. This minor discrepancy does not impact consideration of the Proposed Actions. Any necessary corrections will be addressed in the final Record of Decision.
