## Rough River Lake Dam work to be discussed during public meeting March 5

**ROUGH RIVER LAKE, KY.** — The U.S. Army Corps of Engineers Louisville District will host a public meeting to discuss the dam remediation project on the Rough River Lake Dam, Falls of Rough, Kentucky.

The meeting will be held:

**Date: March 5, 2018**

**Time: 6 p.m. CENTRAL TIME**

**Place: Rough River State Resort Park Lodge,  
450 Lodge Road, Falls of Rough, KY 40119**

**Room: Grayson and Breckinridge rooms**

The meeting will include the Rough River Dam Remediation project status and a briefing on the remediation process. The next phase, which was scheduled to be advertised in December 2017, has been postponed pending the review and analysis of the project design to better address the project risk and increase the long-term effectiveness. The early drawdown that was previously planned for 2019 will not be taking place and the lake is currently being managed per its normal operating schedule. Possible future impacts to lake levels will be evaluated as part of the revised project design. The upcoming phases of work will be discussed by dam safety experts and include cost and schedule impacts.

### Meeting Agenda:

**Opening remarks by Diane Stratton, Rough River Lake park manager**

**Staff introductions**

**Dam remediation progress, findings, and future plans**

**Questions and answers session**

For more information, contact the U.S. Army Corps of Engineers at 270-257-2061.
