

**U.S. Army Corps of Engineers Public Meeting**  
for the  
**Former Waugoshance Point Target**  
Emmet County, Michigan  
Virtual Public Meeting: 6 p.m., Aug. 27, 2020  
Comment Period: Aug. 27, 2020 to Sept. 28, 2020

The U.S. Army Corps of Engineers Louisville District is scheduled to host a virtual public meeting at 6 p.m., Aug. 27, 2020 for the former Waugoshance Point Target in Emmet County, Michigan.

USACE officials are slated to provide a formal presentation on the Proposed Plan for the former Waugoshance Point Target site.

Due to the COVID-19 pandemic and the Centers for Disease Control and Prevention recommended guidelines on limiting the number of people at gatherings and events and the U.S. government's travel restrictions, a virtual public meeting will replace the in-person meeting by using technology (phone and internet) to communicate the same information to and collect comments from the public while ensuring the public's safety.

USACE issued a no further action Proposed Plan for the Waugoshance Point Target Site (Site). The findings and conclusion in the 2020 Final Remedial Investigation Report demonstrate there is no unacceptable risk for exposure to munitions or munitions constituents at the site, indicating no further remedial action is necessary to protect human health or the environment.

Comments will be accepted until Sept. 28, 2020. USACE will finalize its plan after reviewing all comments received during the public comment period. The no further action Proposed Plan may be modified based on new information and/or public comments.

Beginning on Aug. 27, 2020, the proposed plan and related documents can be viewed at:

Hard copies of the proposed plan and related documents are available during the public comment period at:
