APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE**

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 9/10/2020
 ORM Number: LRL-2020-707-LCL
 Associated JDs: N/A.
 Review Area Location¹: State/Territory: IN City: Mt. Comfort County/Parish/Borough: Hancock
 Center Coordinates of Review Area: Latitude 39.8233 Longitude -85.9317

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

| Excluded waters ((b)(1) – (b)(12)): ⁴ | | | | |
|--|----------------|---------|------------------------------|---|
| Exclusion Name | Exclusion Size | | Exclusion ⁵ | Rationale for Exclusion Determination |
| Wetland A | 0.10 | acre(s) | (b)(1) Non-adjacent wetland. | Wetland A is located in a depressional area within a woodlot on the southeastern portion of the site. The nearest potential (a)(2) tributary would be Dunn Ditch or Heinrich Ditch, which are both located approximately 0.75 miles to the north. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a non-adjacent wetland. |
| Wetland B | 0.06 | acre(s) | (b)(1) Non-adjacent wetland. | Wetland B is located in a depressional area within a woodlot on the southeastern portion of the site. The nearest potential (a)(2) tributary would be Dunn Ditch or Heinrich Ditch, which are both located approximately 0.75 miles to the north. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a non-adjacent wetland. |
| Wetland C | 0.40 | acre(s) | (b)(1) Non-adjacent wetland. | Wetland C is located in a depressional area within a woodlot on the southeastern portion of the site. The nearest potential (a)(2) tributary would be Dunn Ditch or Heinrich Ditch, which are both located approximately 0.75 miles to the north. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a non-adjacent wetland. |
| Wetland D | 0.92 | acre(s) | (b)(1) Non-adjacent wetland. | Wetland D is located in a depressional area within a woodlot on the southeastern portion of the site. The nearest potential (a)(2) tributary would be Dunn Ditch or Heinrich Ditch, which are both located approximately 0.75 miles to the north. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a non-adjacent wetland. |

III. SUPPORTING INFORMATION

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
