<sup>1</sup> Map(s)/figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12)): <sup>4</sup>				
Exclusion Name	Exclusion Size		Exclusion <sup>5</sup>	Rationale for Exclusion Determination
Wetland A	0.09	acre(s)	(b)(1) Non-adjacent wetland.	The forested wetland is in the southwest portion of the project site and is greater than 2,000 feet from any (a)(2) waters. The wetland is in a landscape depression surrounded by higher elevation ground. The wetland appears to receive hydrology from surface water runoff. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a nonadjacent wetland.
Wetland B	0.04	acre(s)	(b)(1) Non-adjacent wetland	The forested wetland is in the northwest portion of the project site and is greater than 2,000 feet from any (a)(2) waters. The wetland is in a landscape depression surrounded by higher elevation ground. The wetland appears to receive hydrology from surface water runoff. The wetland does not meet the definition of adjacent wetlands per 33 CFR 328.3 (c)(1)(i)(ii)(iii) or (iv), and is therefore excluded per 33 CFR 328.3 (b)(1) as a nonadjacent wetland.

**III. SUPPORTING INFORMATION**

**A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: [4511 West 99th Street Property Natural Resource Assessment, dated October 2020](#)

This information is sufficient for purposes of this AJD.

Rationale: [N/A](#)

Data sheets prepared by the Corps: [Title\(s\) and/or date\(s\)](#).

Photographs: [Other: 2018 Aerial, Site photos September 2020](#)

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
