W912QR	236220	New VA Medical Facility	D/B/B Construction of multiple buildings to include 5-story hospital, central utility plant, laundry facility, parking garage and associated utilities	Louisville, KY	Over \$500,000,000	1Q, FY21	Unrestricted

Civil Works

DoDAAC	NAICS Code	Contract Name	Description	Place of Performance	Anticipated Contract \$ Value Range (Base + Options)	Anticipated Solicitation Date	Anticipated Type of Competition
W912QR	237990	Rough River Dam Safety Modification	Installation of a continuous cutoff wall through the existing conduit and the construction of a new outlet works to include an approach channel, intake tower, tunnel, stilling basin, and retreat channel that will connect to the existing stream channel. The new outlet works is currently proposed to be constructed through the left abutment of the dam primarily through rock. The cutoff wall will consist of an approximately 1,600 foot long concrete cutoff wall through the embankment and into the foundation rock to an anticipated maximum depth of 195 feet, including an anticipated maximum depth of 100 feet into bedrock. The purpose of the cutoff wall is to provide a continuous seepage barrier to reduce the risk for internal erosion. Additional work will consist of de-commissioning of the existing outlet works, relocating State Highway 79 back to the crest of the dam, and site restoration.	Rough River Lake, KY	Between \$100M and \$250M	FY21	TBD
W912QR	237990	Johnson County FRM project	Project will study and design a structural Flood Risk Management project in the City of Paintsville, KY as well as non-structural measures in the surrounding county.	Johnson County, KY	Between \$25M and \$100M	FY21	TBD
